## FULL STACK SOFTWARE ENGINEER

Full Stack Software Engineer with 2+ years of experience building scalable, high-performance web applications across frontend and backend systems. Proficient in modern JavaScript frameworks and libraries including React.js and Next.js, with strong expertise in backend development using Node.js, RESTful APIs, real-time technologies, and database-driven architectures. Demonstrated ability to design responsive, SEO-optimized user interfaces, architect secure and maintainable APIs, and deploy production-ready solutions on cloud platforms such as AWS. Brings a strong focus on performance optimization, clean code practices, system scalability, and collaborative development within fast-paced product environments.

### CORE COMPETENCIES

- Full-Stack Application Development
- System & Feature Architecture
- API Design & Integration
- Performance Optimization
- Scalable Application Design
- Real-Time Feature Implementation
- User Experience & Interface Optimization
- SEO-Focused Development
- Code Quality & Maintainability
- Problem Solving & Debugging
- Agile & Collaborative Development
- Cross-Functional Team Collaboration
- Requirements Analysis & Implementation
- Production Deployment & Support

### TECHNICAL SKILLS

- Frontend:** React.js, Next.js, Redux, Zustand, Tailwind CSS, SCSS
- Backend:** Node.js, Express.js, REST APIs, WebSocket, Convex
- CMS:** Strapi CMS, Sanity CMS
- Databases:** PostgreSQL, MongoDB, Prisma, Mongoose
- Cloud & Tools:** AWS EC2, AWS S3, Docker (basic), Git, Nginx
- Other:** TypeScript, SEO Optimization, Clerk

### PROFESSIONAL EXPERIENCE

Frontend Developer, Tooouk - Dubai, UAE

Aug 2025 - Dec 2025

#### Key Deliverables:

- Delivered production-ready frontend applications across a multi-platform fintech ecosystem, including marketplace, payments, referrals, and content platforms.
- Built high-performance, SEO-optimized, responsive UIs using Next.js, React, Tailwind CSS, and Zustand, leveraging SSR to improve Core Web Vitals.
- Designed reusable component libraries and efficient state management, accelerating feature delivery and ensuring UI consistency at scale.
- Integrated RESTful APIs and collaborated closely with backend, UX, and product teams to deliver stable, scalable solutions under tight timelines.

Web Developer - Apex Software, Dubai, UAE

Sep 2024 - Aug 2025

#### Key Deliverables:

- Designed and delivered a scalable gaming aggregation platform integrating 2,000+ games from multiple third-party providers, supporting high-traffic and real-time interactions.
- Built a high-performance, responsive frontend using Next.js, React, and Tailwind CSS, improving page load speed, engagement, and cross-device experience.
- Engineered optimized REST APIs and contributed to multi-provider system architecture, accelerating onboarding and reducing integration complexity.
- Executed SSR and frontend performance optimizations, ensuring cross-browser compatibility, production stability, and enterprise-grade quality standards.

### PREVIOUS EXPERIENCES

Data Engineer - 64 Squares LLC, Pune, India (Mar 2024 - Apr 2024)

DevOps Intern, Celebal Technologies, Pune, India (Nov 2023 - Jan 2024)

### KEY PROJECTS

**Naachogaa - Collaborative Music Streaming Platform | Real-time "Watch Together" Application | [naachogaa.anujbhatt.com](https://naachogaa.anujbhatt.com)**

- Built a real-time collaborative streaming platform using Next.js, Convex, and WebSockets, enabling synchronized YouTube playback and shared queues.
- Implemented low-latency multi-user interactions with optimistic UI updates and resilient session management for seamless synchronization.
- Integrated Clerk authentication with role-based access, auto-rejoin, and playback state recovery for fault-tolerant user experiences.
- Delivered a polished, intuitive UI that streamlined onboarding and significantly improved user engagement.

**Anaira - Ecommerce Platform | Scalable Direct-to-Consumer Storefront | [anaira.style](https://anaira.style)**

- Developed a scalable ecommerce application using Next.js, Sanity CMS, Clerk, Stripe, and AWS S3.
- Implemented secure payments, dynamic content management, and media handling.
- Optimized UI/UX and performance for seamless browsing, checkout flows, and global scalability.
- Enabled content-driven growth through CMS-based product management and localization support.

**Toouk Marketplace & TooukPay - Multi-Platform Fintech Ecosystem | Marketplace, Payments & Referral Systems | [toouk.market](https://toouk.market) | [tooukpay.com](https://tooukpay.com)**

- Built high-performance frontend applications for marketplace listings, digital wallets, referrals, and real-time transactions.
- Implemented secure API integrations and optimized state management for reliable data flows and responsive dashboards.
- Standardized UI components and design systems to enhance usability and consistency across platforms.
- Delivered production-ready features under tight timelines without compromising performance or scalability.

**Diamond365 - Online Gaming Platform | Multi-Provider Gaming Aggregation System | [diamond365.live](https://diamond365.live)**

- Developed a scalable multi-provider gaming platform using Next.js, Node.js, PostgreSQL, and Prisma.
- Built core platform features and responsive interfaces with cross-device compatibility.
- Contributed to a stable, production-grade architecture supporting high user concurrency and multiple game providers.

### EDUCATION

- Master of Computer Science** - Savitribai Phule Pune University (2024)
- Bachelor of Computer Science** - Hemvati Nandan Bahuguna Garhwal University (2022)
- Diploma in Aviation & Hospitality** - Blue Hedel (2018)

### PERSONAL DETAILS

- Date of Birth:** 29 Mar 2000
- Nationality:** Indian
- Languages Known:** English, Hindi
- Location Preference:** Singapore, Dubai
